"Nata di marzo"

Milan, late 50s: Francesca and Sandro's marriage is falling apart due to their age difference. Flashbacks throughout the movie will reveal the breakdown of a relationship in a society where independence and divorce used to be stigmatized.

This movie by Antonio Pietrangeli ("il regista delle donne") portrays with tenderness and elegance the misunderstandings and the affinities between two lovers (actors Jacqueline Sassard and Fabrizio Ferzetti) in a beautiful setting.

Nata di marzo (1958, 110min. in Italian with Eng. Subs)
